Programme

Gas 2017 will examine the challenges and opportunities our industry faces, and looks at how we can strive to be at the forefront of enabling the UK to reach its carbon budgets and fuel poverty reduction targets. From energy efficiency for UK buildings to utilising gas for transportation, the wide range of topics addressed at the event will provide vital insights into the ways in which gas can be central to the future of the UK's energy mix.

The conference provides an opportunity for those within the industry to gather for a day packed full of networking and critical insights from GDNs and Ministers.

The event will conclude with an optional tour of the Brewery Museum and a beer tasting at the William Worthington Microbrewery - with the chance to sample some great local ales brewed on site. The Brewing Experience houses a collection of vintage vehicles, such as a 1920s Daimler bottle car, built to deliver beer to pubs for promotional purposes. A trip to the beer boutique, gift shop or Brewery Tap Bar after the event is also optional.

This unique networking event at a fantastic venue is not to be missed.

Cost: £250+VAT (EUA Members) £350+VAT (EUA Members)

To book: Please complete the form on the back of this leaflet or book online at www.eua.org.uk/gas-2017/

Contact: Contact Natalie Flay for queries and alternative ways to pay on **01926 513741** or email natalie@eua.org.uk
